

Open Position

Editor-in-Chief

Journal *Biomedizinische Technik / Biomedical Engineering* (initial term 2010–2013)

Walter de Gruyter Publishers and the Editors of *Biomedizinische Technik / Biomedical Engineering* (Biomed Tech) seek a scientific professional to serve as Editor-in-Chief for the journal as of 2010. Candidates must have expertise and an established network in the field of biomedical engineering, and a general understanding of publishing standards for scientific, peer-reviewed journals. The Editor-in-Chief is responsible for publishing six issues of Biomed Tech each year per established goals, budgets, guidelines and timelines. The initial term of service is four years.

Application details: Please send a letter of application, professional CV, and a ±500-word statement of your strategic vision for the journal to: bmt.editorial@degruyter.com.

Application deadline is July 15, 2009. The goal of the Editor-in-Chief Search Committee and Walter de Gruyter Publishers is to engage a candidate in fall 2009.

Biomedizinische Technik / Biomedical Engineering is a peer-reviewed, high-quality forum for the exchange of knowledge in the fields of biomedical engineering, medical information technology and biotechnology/bioengineering. As an established journal with a tradition of more than 50 years, Biomed Tech addresses engineers, natural scientists, and clinicians working in research, industry, or clinical practice. Biomed Tech is published in six issues per year. It is listed with important indexing services such as BioEngineering Abstracts, CAS, Index Medicus/MEDLINE and Journal Citation Reports/Science. In the course of 2010, the journal will move to English only publication.
